Corrigendum

Corrigendum to 'If not me, then who? Responsibility and replacement'
[Cognition 242 (2024) 105646]Sarah A. Wu, Tobias Gerstenberg^{*}

Stanford University, Department of Psychology, United States of America

The authors regret to have stated incorrectly that participants were randomly assigned to the two conditions (*agent* and *object*) in each of the three reported experiments. In fact, for each experiment, the first half of

participants ($n = 50$) were assigned to the *agent* condition and the second half ($n = 50$) to the *object* condition. The authors would like to apologize for any inconvenience caused.
